

CATALYST AND CUSTOM PLYO BOXES

INTRODUCING OUR VERSATILE 3-IN-1 PLYO BOXES AND PLYO BOX TOWERS, ENGINEERED TO OPTIMISE YOUR PLYOMETRIC TRAINING WITH DURABILITY AND ADAPTABILITY.

The 3-in-1 Plyo Box is constructed from recycled PU foam and reinforced with a PVC outer cover, zipper and stitching. The Plyo Box Tower uses tough PE foam and reinforced PVC outer covers, zippers and stitching. These boxes offer reliable stability and support for various exercises, ensuring safety during intense workouts. The non-slip PVC landing areas enhance grip, while the reinforced joints

provide added durability and longevity. Engineered for versatility, our 3-in-1 Plyo Boxes and Plyo Box Towers can be height-adjusted to accommodate users of varying levels. Elevate your plyometric training with our Plyo Boxes, where quality meets functionality for optimal performance.

PLYO BOX OUTER SHELL

Hard wearing, and durable reinforced PVC
